The New Building Project

We beg to invite your attention to the report placed before the last General assembly. The dream project of new building for our library was supposed to take off during this period. Lot of groundwork was done to mobilise adequate funds for this mega project. The combined efforts of the managing committee members enriched with the good rapport of some of us with the heads of the public sector undertakings in the district helped us a lot in ensuring Corporate Social Responsibility (CSR) support of one Crore each from Cochin Shipyard Ltd., Kochi Refineries Ltd, Hindustan Petroleum Corporation Ltd., and Petronet LNG. Besides Penna Cements also assured to extend support by way of materials. The respected Member of Parliament from Ernakulam Shri. Hybi Eiten assured our delegation which met him, a good support from MP Fund. The Members of Legislative Assembly from Ernakulam and the neighbouring constituencies as also the Nominated MLA Shri. John Fernandez who also happens to be our nominated member in the Managing Committee, assured to support the building construction with appropriation from their MLA Funds. The Govt. of Kerala in its annual budget for the year 2020-21 allocated 1 Crore support for the Ernakulam Public Library Building Project. The Kerala State Library Council also volunteered to occupy a portion of our new building on a permanent lease arrangement.

These encouraging gestures from different corners promptly persuaded the managing committee to declare launching of the project and with this intention in mind we convened a good gathering at Ernakulam Town Hall which was attended by various dignitaries. The Hon'ble Justice Sukumaran inaugurated the fund mobilization by donating one lakh rupees to the building fund. A committee was also formed to monitor the construction activities. In the same Convention at Town Hall we also

decided to celebrate the 150th anniversary of our library with different literary and cultural programmes.

In the midst of this, a complaint was lodged by a person against the library alleging that the old Narayana Mandiram building which was sought to be demolished to enable new building construction is of Archeological Significance and value and the building shall not be permitted to be demolished.

Archeological Department has now imposed a stay on the proceedings and it is yet to be cleared. Lack of proper functioning of Govt. Offices these days is yet another hurdle causing delay in this clearance. The outburst of pandemic Covid-19 has added to the burden causing apprehensions on the availability of assured funds from different Govt. owned institutions and also from the State Govt and the Representatives in the Legislative Assembly.

In the wake of these constraints and developments, we are now compelled to shelve the new building construction project at least for the time being. We have to continue our efforts to get the stay vacated, ease out the process of demolition of the old dilapidated structure, prepare the site ready to commence construction and lay the foundation stone at a suitable time where availability of funds can also be simultaneously ensured from the said sources.

150th Anniversary Celebrations

Established in the year 1870, we have now completed 150 years of dedicated service to the society. Managed and led by eminent personalities during yesteryears, this great institution has established itself as one of the frontline libraries in the state. The varied services rendered by this library now are appreciated by people from all walks of life.

150th year Celebrations should have started from January this year as planned earlier, but unfortunately due to reasons beyond our control caused later by pandemic too, we could not even take off. It has now become more difficult as physical gatherings are only a remote possibility. The virtual platforms are to be used to conduct webinars on different topics of current significance. Cultural and art forms can also be planned to be staged to be viewed online. 150th year may pass by without enabling us any opportunities for any programmes with mass participation. However to keep the rich traditions, we may have to work out and evolve some plans that will help to create some impetus. We hope this General Assembly will throw enough light by constructive suggestions and advices on these points.

Cultural programmes held in the Library during the Report Period

During the period under report several talks, discussions and interactive sessions were conducted in the Library are shown in Annexure II.

Conclusion:

Within the constraints enumerated above, this managing committee has taken possible efforts to render better services to our community. We are aware that we still need to improve a lot. Pure voluntary services always have an element of self sacrifice in it. It may at times fall short of expectations too as we ourselves find at times of introspection on our own part. Whatever has been achieved and whatever had been done, was made possible only because of the unstinted cooperation of the members at large. We appreciate, acknowledge and bow our heads for all that support we received during this period. We are grateful, grateful to the core. We request this General Assembly to approach this report critically, evaluate the process and come out with concrete positive suggestions to further advance our ambitions.
